Professor Christian Brosseau
Deputy Editor
Journal of Applied Physics

October 25, 2024

Dear Professor Brosseau,

Thank you for providing us with the reviews of our manuscript entitled “Optimizing Hybrid Ferromagnetic Metal-Ferrimagnetic Insulator Spin-Hall Nano-Oscillators: A Micromagnetic Study,” by Robert Xi et al. We appreciate the positive comments and thoughtful points raised by the reviewers. We have revised the manuscript to address the reviewers’ comments and provide a reviewer response document, a revised manuscript, and a marked-up manuscript with the changes highlighted in blue font.

Thank you for considering our revised manuscript.

Sincerely,

Ya-An Lai for all authors
